BEYOND MATCHING / BM-ODWEI

OTHERS · Directional Weak-Evidence · Reputational Intelligence

INITIAL PUBLIC RESEARCH RELEASE | v1.1.0

v1.0.0 Foundation + v1.1.0 Metric Directional Intuition Extension

RESEARCH QUESTION

How can intelligence evaluate what it cannot yet formally match?

This theory-first collection explores weak, indirect and incompletely formalized evidence through open evidence capture, directional guidance, perspective-aware scoring, lightweight hypothesis testing and governed structural growth.

INTEGRATED RESEARCH PATHWAY

Matching baseline > OTHERS evidence > Directional guidance > Hypothesis testing > Evidence governance > Validated growth / rejection

FOUNDATION | v1.0.0

BM-001	Limits of Distance Scoring
BM-002	OTHERS Open Evidence Space
BM-003	Directional Measurement Sails
BM-004	Reputational Weak Signals
BM-005	Perspective and Action Scoring
BM-006	Open Structural Scoring Growth
BM-007	Counter-Evidence and Governance
BM-008	Unified Architecture and Validation

MDI EXTENSION | v1.1.0

MDI-001	Problem and Research Boundaries
MDI-002	Euclidean and Metric-Native Scoring
MDI-003	Perspective Fields and Guidance
MDI-004	OTHERS Residual / MET Integration
MDI-005	Hypothesis Testing and Reputation
MDI-006	Evidence Relay and Structural Growth

RESEARCH ASSETS

14 papers (BM-001–008; MDI-001–006) · 11 figures (Fig-001–011) · validation roadmaps, research questions and release metadata.

SCIENTIFIC STATUS

Conceptual framework and candidate algorithms; selected mathematical properties hold under stated assumptions. No claimed benchmark superiority, production runtime, independent replication or verified biological model of intuition.

RELEASE AND CITATION

One combined GitHub release tagged v1.1.0. The v1.0.0 label denotes the foundational research stage, not a separate archived version. Cite the version DOI after Zenodo assigns it.
